Application

Use with Models SSEA and SSDB to result in easier, lower cost, quicker and higher quality installation of round diffusers in suspended ceilings

Features

- Diffuser sizes 14" and smaller can be set in a panel to fit 24" x 24" T-bar ceilings.
- This panel will work with 9/16", 15/16" or 1-1/2" flat face T-bar.
- Panels to fit other types and sizes of suspended ceilings are available on request.
- Panel construction is steel.

Installation Notes

- Note that the diffuser inlet is still oversized to fit the duct inside. This eliminates air leakage, but requires the use of hard duct connection to the diffuser.
