1-1/4" (32mm)

CARNES®

The wall mounted HXHCG Humidistat uses a monolithic sensor and electronic circuitry to provide accurate and reliable humidity sensing. Set point range is 0 to 100% R. H. to cover most application requirements. The HXHCG has a concealed setpoint adjustment with a locking cover to prevent tampering. Ambient operating conditions are from 0° to 85°C.

INSTALLATION

The HXHCG has a locking cover. Unlock and open the cover by inserting an Allen wrench as shown.

Allen Screws

Lift cover up from base

Use Allen wrench to unlock cover

All wiring connections must be made in accordance with the National Electrical Code and all local regulations.

Make connections using No. 18 AWG wire.

Avoid running control wiring near high voltage primary wires.
